PRODUCT DESCRIPTION

1K Polyurethane WB Basecoat for UV

Sylaqua UV E-900 Series is a 1 component polyurethane water borne basecoat for wooden surfaces using UV polymerization methods.

Its unique formulation provides superior filling properties, and recoatability.

The clarity and excellent wood wetting (anfeuerung) of the basecoat highlights the natural warmth of the wood grain.

Advanced adhesion to the wood with very high mechanical and chemical resistance is achieved.

ADDITIONAL INFORMATION

Gloss level	0
Basecoat/Topcoat	Basecoat
Indoor/Outdoor	Indoor
Type of chemistry	Polyurethane 1K - WB
No of components	1K
Solvent / Water Based	Water Borne
Colour	Transparent
